

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for quality, service, technology and delivery. They believe in working within an environment that supports the utmost integrity with empowered teamwork, together with a unrelenting pursuit of results.

AxleTech International is a General Dynamics company. They believe strongly in actively utilizing principals of ecological stewardship and safety in how they do business. The company has put various programs in place to be able to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are happy to promote and share this policy with a greater knowledge of their efforts. They are very committed to improving and preserving the environment. AxleTech has an EHS program that not just protects the natural world but which even actively protects their staff and neighbors also.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles used for both military and commercial applications. These applications range from airport ground support to construction equipment. AxleTech specially designs axles to meet particular application demands. They have over one thousand different axle specs within their existing offering. With over one hundred years of history and experience, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in various commercial and military applications. They provide complete axle assemblies used for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product collection.
