

Meritor Part

Meritor Parts - Meritor is a leading international dealer that is proudly built on a one hundred year custom of quality and service. They specialize in different integrated systems, modules and components to original equipment manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage within the international operations. The business values all their clients and wishes to ensure their success while anticipating their different needs. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

By just employing future focused staff, Meritor strongly believes these top-caliber workers would be able to quickly adapt to changing surroundings and exhibit the performance and commitment considered necessary to be able to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all their employees various chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, suspension and braking systems used for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the needs of their international engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all over the globe in 19 nations and in 5 different continents.

The supplier development network is specially located to be able to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each and every aspect of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in each and every region. The team is even included transactional Green Belts who make use of Six Sigma tools to business processes and implement lean methods.
